

# THE ARIZONA RAMBLER

THE OFFICIAL PUBLICATION OF THE GRAND CANYON CHAPTER OF THE AMCRC

VOLUME 1, ISSUE 2

JULY 2012

Summer is officially here, and many of us are taking our cars out on the road. There are few things better than getting that AMC on the road. This brings up the subject of safety in numbers. The rule about travelling with others was brought home to us just last week, when we were driving in a convoy of eleven other AMCs to the AMCRC National Convention in Reno. Everything was going fine, when my car's alternator light went on. Within a few minutes it was obvious that we had seized bearings and a screaming belt. Fortunately, we were close to a town, and, even more fortunately, one of our convoy companions had an alternator that would fit. The rest of the trip went on without a hitch.

The "Rambler Family" is more than just a list of cars on a ledger. It is the community of all of us who own, drive, appreciate and remember these cars. I encourage people to become acquainted with this community, both in the "real" world and the cyber one. If you attend a show, stop by to say hello to the people sitting behind the cars, and, if you are so inclined log on to the internet community. The AMCRC has a Facebook page now and there are several AMC specific forums that can be found by putting "AMC FORUM" in the search box. There is also a forum for full sized Jeeps.

If you are travelling to an event, check to see if there is someone else going the same way. Being part of an AMC convoy is a wonderful way to get there, and getting there IS half the fun.

*Happy Rambling, Suzanne*
